PROFAST[®]
INDUSTRIAL FASTENING SOLUTIONS

COMPANY OVERVIEW

Profast Pty Ltd is Australia's top supplier of industrial grade fastening products. Our range of products includes specialty rivets, rivet derivatives, two-piece fasteners, threaded inserts and the associated tools needed to install them.

Profast currently operates two warehouses in Perth and Brisbane with the purpose of serving all of Australia and we pride ourselves on having comprehensive stock volumes to meet any demand.

Because Profast is over two decades old, we've developed strong ties with suppliers, guaranteeing a steady supply of stock, even during times of supply chain hardship.

We stock a wide range of quality tools and spare parts and have an extensive range of tools for hire.

**Across the light and heavy industries,
Profast is Australia's leading supplier
of industrial fastening products!**

OUR PURPOSE

Profast has two purposefully supplied warehouses located on opposite ends of Australia. That fact means we can deliver important parts quickly anywhere! Nothing is too remote.

Profast enjoys an exclusive relationship with several top manufacturers from around the globe. Because we cut out the middleman, we can offer premium industrial fastening products at wholesale prices. We also sell an extensive collection of fastener tools and the parts to service that equipment.

Our dedicated repeat customers count on us to warehouse their hypercritical replacement parts. We host these items on our shelves because we think of ourselves as partners to their important operations. Don't let tenuous supply chain issues slow down replacement part delivery. Trust us to have it on demand.

We appreciate that downtime in production costs money and waiting on components is frustrating. That's why Profast's warehouses are teeming!

OUR SERVICES

Profast was established in 2000 and has, during its more than two decades of service, determined which manufacturers craft the best fastener products. Today, our warehouses are filled with those products because of their reliability, durability and quality.

Our products include assorted rivets, threaded inserts, lockbolt systems and asphalt anchors, among many other items. We also have an extensive collection of installation tools and spare parts.

While we do have many relationships, Profast is the exclusive national supplier of Ornit, Böllhoff and Honsel products.

Due to the extensive training and experience of our team, you can count on Profast for technical advice and troubleshooting.

We offer tools for hire and loan because, sometimes, your fastener needs are occasional or you can't wait for tool repairs.

At Profast, we are experts at the art of mechanical joining.

✓ PRODUCTS

We have an extensive range of structural rivets, threaded inserts, lockbolts along with the standard nuts, bolts, and washers if required. We supply these items in steel, stainless steel, aluminium and other metals including marine-grade materials.

✓ FASTENING TOOLS

Profast has an assortment of riveting, lockbolt, and nut insert installation tools. We can service these tools and have an extensive selection of replacement parts in stock.

✓ TECHNICAL TROUBLESHOOTING

We understand that a key component to any fastener solution is customer support. If you're having problems installing any of our products or working with any of our tools, we have the personnel standing by to offer advice and guidance.

✓ TOOLS FOR HIRE

Profast also offers tools for hire because we understand that some jobs don't warrant purchasing a new tool or you might have an urgent job that require additional resources.

INDUSTRIES WE SERVE

Because rivets and other industrial fasteners are an important part of any industrial project, Profast has clients from a variety of important Australian business sectors. Our clients include mining, transport, traybody, maritime, renewable energy companies and so forth.

- ➔ MINING
- ➔ HVAC
- ➔ HEAVY INDUSTRIES
- ➔ MARITIME
- ➔ RENEWABLES
- ➔ RAILROADS
- ➔ LOCAL, STATE, FEDERAL GOVERNMENTS
- ➔ SHEETMETAL
- ➔ TRANSPORT
- ➔ RV'S AND CAMPER TRAILERS

Profast is the industrial fastening solutions leader when it comes to providing the very best industrial fasteners and products.

SUPPLIERS

Over the years, Profast has developed long term relationships with a wide range of quality suppliers. In addition to our exclusive relationships with Omit, Böllhoff and Honse, we also carry products from these suppliers.

Profast understands that you may need fasteners to keep your operation running and we believe no industrial site is too distant or too remote.

OUR CLIENTS

Profast has a long list of clients and service providers with whom we work. We know that our market is exclusive and exceptional, and we have made it our mission to gather the best, most dependable range of fasteners and installation tools. We do this because we know our clients trust us to be prepared to supply them with the mission-critical items necessary to keep their operations on task.
