

Description

Split Hydro-pneumatic Installation Tool - Interchangeable Nose

This heavy-duty production tool is designed for fast installation of lock bolts and structural rivets. The booster system is split from the tool head making the tool significantly lighter and offering exception ease of use to the operator due to the light and flexible hoses. This tool boasts more traction power than other tools delivering reliable operation over extended periods. The tool head accepts a wide range of nose assemblies which can be quickly and easily changed to suit rivets and lock bolts.

**Noses not included.

Specifications

Model	TA-5000
Type	Double Acting Hydro pneumatic
Construction	Polycarbonate & Steel
Capacity	Up to 5/16" Structural Rivets or 1/4" Lock bolts in all materials
Traction Power	21.06kN / Stroke: 24mm
Weight	Tool head:1.59kg / Booster: 8.64kg
